From Gstaad/Saanen we drive about 11 km in southern direction to Gsteig. Approximately in the center of the village we follow the signpost to the Sanetsch cable car and turn half-left into the Innergsteigstraße/the Wallisgässli. After 1.4 km from here we come to the E-Werk on the right of the road and park our car here (1195m altitude).

We cross the Saane and follow the hiking trail to the castle falls. After a good 700 meters of trail we arrive at our later exit point (1250m altitude). We continue our ascent along the stream. The upper part with the four rappels is cool, but the anchors are older—the lower part was renovated, but these weren’t. We managed with a 40-meter rope, but for a bit more comfort, I’d recommend a 50-meter rope. There’s some wood in the middle section, but it’s not a problem. (traduzione alternativa)
