Specialità:		
Attrezzatura: Corde: 2x 30m		
Sintesi: (traduzione alternativa) Long forest canyon, not unattractive, long access		
Idrologia:		
Accesso: (traduzione alternativa) From Ventimiglia up the Roya to Breil-sur-Roya (25 km). Parking on the right bank of the Roya, opposite the old town.		
Avvicinamento: (traduzione alternativa) At 290 m above sea level, we leave the old town to the south (marker "3") and follow the footpath that runs along the left bank of the Roya. After about 400 m, turn left onto a path towards Vésaire and Serre de Pozzo at marker "105" by a small chapel. We pass the houses of Vésaire (approx. 25 min.) and continue uphill above the Vallon de Carleva. After about 1.5 hours from Breil, you cross a side valley. The path now heads south-east and after a further 20 min. reaches a fork (850 m above sea level) on the right down to the Carleva (information board). You can shorten the access and descent by taking one of the paths on the right down into the streambed.		
Giro: (traduzione alternativa) Many slides and jumps (the T 19 is dangerous because you can violently scrape against the wall before entering the pool). A lot of walking, a series of small rappel.		
Ritorno: (traduzione alternativa) Before the bridge, take a new path to the left, secured with wire ropes and iron clamps, up to the path. Cross the bridge and take the footpath above it up the Roya back to Breil.

Automatisch importiert von Descente-Canyon.com für Canyon Carléva Attention a ne pas sous estimer l'approche qui est longue et chaude en ce moment . Nous avons bien mis les 2h indiquées . Je ne suis pas certain que de mettre "approche en 1h" sans préciser : effectué par des personnes très entraînées !!! soit une bonne idée .Sinon pas de problème particulier dans le canyon qui est beau , sauvage et ludique mais qui comporte pas mal de marche . Automatisch importiert von Descente-Canyon.com für Canyon Carléva Belle ambiance. Approche compter 1H15-1h30. Début du canyon sec jusqu'à l'arrivée du 1er affluent Rg. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2237/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Carléva Canyon très sauvage avec de très beaux passages : cascades, sauts, toboggans. Les longues sections de marche font baisser sa note, sinon il mériterait plus à mon avis. DC- (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2237/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Carléva De beaux passages mais gros manque de continuité avec beaucoup de marche, l'avantage, c'est bien à l'ombre !! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2237/observations.html>)
