Automatisch importiert von Descente-Canyon.com für Canyon Valmola Combo with Val Tur and Valcosenz on a bad weather day. Has the potential to be nice, but unfortunately to much debris. The odors of the dumped dead animal remains where a less pleasant suprise... (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22478/observations.html)

Anchoring good throughout. We had a rope jam on a tree. It is a good idea to bring some old ropes with you and set up a stand on the tree. Very scenic in the fall. (traduzione alternativa)

Compared to our visit 2 years ago, the "wow" effect of that time was missing. In 2023 we admired the rock, today we were more disgusted by the garbage and the stinking water, also because of a dead animal in the water. The quality of the anchors is much better than 2 years ago - but still not perfect. (traduzione alternativa)

Some of the anchors could be replaced, as they already look very worn, but are still functional. A lot of wood in the canyon at the moment. (traduzione alternativa)
