Sintesi: (traduzione alternativa)
Short waterfall gorge with old chain anchors, usually dry in summer

Idrologia:

Accesso: (traduzione alternativa)
Take the B25 into the Ybbstal, in Göstling an der Ybbs head towards Lunz am See. At KM 51.5 a fort road leads to the left. Park here at the edge of the forest.

Avvicinamento: (traduzione alternativa)
Follow the forest road upwards. Exit the first hairpin bend and stay on the lower road at the next bend. Continue to a clearing with a hunting lodge and private signs. Here it is best to stay on the upper forest road for a while and then descend to the forest path below without a path and at a respectful distance from the hunting lodge. Follow this forest path to Koglbach (last path).
Alternatively, you can stay on the upper forest road and continue along it to the Koglbach stream. Then 10min downclimb in the streambed.

Giro: (traduzione alternativa)
Descend briefly in the streambed until a low forest gorge forms, downclimb 3m here (fallen trees) and in the gorge to the edge.
Either rappel 33m from the chain on the right or 8m to a small pool and rappel another 25m from glued anchors on the right. Downclimb into an eroded rock basin and rappel 25m and 14m with two more chain anchors. An anchor is broken at the first chain anchor.

Ritorno: (traduzione alternativa)
Across the meadow to the cycle path and on this back to the car (approx. 1km)

A bit of water at the entrance, but in the waterfall completely dry. Beautiful rock basin in the middle part, but you do not have to have made tour. Old and massive belays that are but already in the years. At the penultimate waterfall is an anchorage torn out (traduzione alternativa)
