Stagione: luglio - settembre	**Orientamento:** Ovest	**Tempo migliore:** 10-13 Ore
Valutazione: ☆ 3.4 (9)	**Info:** ★ 2.3 (9)	**Belay:** ★ 1.7 (9)

Specialità:

Attrezzatura:
Corde: 2x 40m

Sintesi: (traduzione alternativa)
Long river walk interrupted by some charming passages.

Idrologia:

Accesso: (traduzione alternativa)
Coming from the highway exit Bellinzona Süd, cross the river Ticino, pass Locarno airport and then straight on at the traffic circle to the T-junction. Turn left here and follow the signs into the Verzasca Valley via Gordola, past the dam, along the reservoir to Vogorno (11.3 km from the crossing of the Ticino). From Vogorno we continue along the reservoir to Lavertezzo and from there towards Brione. Here continue towards Gerra and then Frasco as far as the bridge over the Riale d'Efra.

Avvicinamento: (traduzione alternativa)
From the bridge, follow the road for approx. 50 m. A path goes uphill to the right between the houses. Follow this and turn right when it reaches the exit of a road. At the next junction, take the path on the right, which is less steep and enters the valley. Follow the path for a good 90 minutes until you reach Chignö/Chignolo (1360 m).

Alternative start a little earlier at approx. 1260m before the steep ascent directly into the river bed.

Giro: (traduzione alternativa)
Very long tour with some interesting sections, some of which are slippery. The lower parts are also partly slippery at higher abseiling points. Check out well. Very open character. Emergency exit possible at almost any time, except in the last section where it is cut in.

Ritorno: (traduzione alternativa)
Get off at the bridge. You are directly at the car.

More beautiful than expected, not slippery at all....The anchors are fine, but some are getting a bit old and could use some repair... (traduzione alternativa)

Molti punti singoli potrebbero essere doppiati per una maggior sicurezza. Un ancoraggio particolarmente alto può dare qualche problema.

Everything in order, basically everywhere where strictly necessary there are monopoint anchors while on many other points downclimb is necessary; water level normal/low with quite all the jumps feasible and the last T25 feasible. First part more open and vertical, than narrowing a little bit with many pools, jumps and toboggans, and becoming more slippery. Some walk in between, another narrow section with a beautiful pitch, little other walk and the final section with pools and the T25.

Everything was okay, rather grippy at the beginning, increasingly slippery towards the exit. (traduzione alternativa)

All the necessary anchors were there and in order... Sometimes you had to look for them... We got in at 1500m... (traduzione alternativa)

Water level high at the CP after the thunderstorm the evening before, but falling during the ascent. Entry at 1280 hM. Access to there 50 min. Anchor ok, partly something to look for. Relatively long walking passages, but good grip. Nice jumps and slides (after checking). There is a charge for parking, but almost all payment systems are possible (Twint, Easypark, Parkingpay, Verzasca ParkingCard). (traduzione alternativa)

The official parking lot was full, about 500m further you can drive down at the church to a paid parking lot (7h costs about CHF 15.-). We were 5 people, 6h for access and ascent. At the beginning very grippy and not slippery, towards the exit where the canyon is cut more slippery. If you have a practiced eye, you will also find some jumps (2 to approx. 10m). Once you have parked at the bottom, you can return to the car at the exit to the left of the stream. (traduzione alternativa)
