Sintesi: (traduzione alternativa)
This canyon is rarely climbed and runs right next to the road to the Hintersteineralm. At the beginning the canyon is rather narrow and incised, towards the end it becomes more open with a few beautiful sunny rappels into pools. Rather slippery throughout. The belays were renovated in summer 2025. Short approach and descent.

Idrologia:

Accesso: (traduzione alternativa)
From Liezen, follow the B 128 north. After about 5 km, you'll come to an S-bend; immediately after that, there's a parking lot on the left side of the road, large enough for a few cars (see parking lot coordinates). 50 meters further on, at the turnoff to a forest road or the access, there is another possible parking spot (though there was last seen an upside-down "No Parking" sign there). Driving and parking are prohibited on the road leading directly to the Hintersteineralm or the canyon.

Avvicinamento: (traduzione alternativa)
From the parking lot on the forest road (hiking trail is signposted), follow the trail for about 100 meters. Before you reach a few houses, the trail branches off and leads directly uphill to the road to the Hintersteineralm. Once you reach the road, follow it to the canyon entrance.

Giro: (traduzione alternativa)
From the road go 5 m into the ditch, first rappel immediately afterwards at the shoring.

Everything's fine. I've updated the directions because there's a driving ban on the road to the Hintersteineralm. (traduzione alternativa)

Everything's fine so far. Lots of canyoning for such a short access. A few single hooks. A great trip at this water level. Unfortunately, it's very slippery... (traduzione alternativa)
