One of the best canyons in Montenegro. Very beautiful, varied water-bearing canyon; some deep pools; clean water; several jumps and slides; several escape routes, but very heavily overgrown. Aging belays, many old anchors, but also some new ones.

Accesso: (traduzione alternativa)
From the village of Bar, turn left at the traffic circle towards Ulcinj/Skadar. At the next traffic circle turn right towards Ulcinj/Skadar. Cross 2 traffic lights and at the next roundabout take the 3rd exit in the direction of Ulcinj. Then at the traffic circle turn right towards Ulcinj. Drive through the village of Zaljev. Turn left towards Ostros and drive up the mountain road. After 9.7 km turn left towards Dabezići (tree in the middle of the fork in the road). Keep left here. Follow the markings for Markezici/Kelezići. First cross the bridge and then turn right towards Medurec. After a short distance, park the shuttle car at the junction on the right at the gravel parking lot. With the 2nd car, follow the narrow mountain road from Medurec (first asphalt then gravel). Park next to the Islamic graveyard.

The canyon is certainly one of the most beautiful tours in Montenegro and offers everything you could hope for from a casual canyoning tour. The highest steps are right at the beginning. This is followed by a longer walking passages. The canyon narrows again and more beautiful pools and steps up to a maximum of 20 m follow.

A little tip: three square boxes at the concreted stream crossing at the exit (access possible) serve as an indicator of the normal water level.

Ritorno: (traduzione alternativa)
After the last two drops, a 20m followed by a short 5m, neoprene off. Take a path river right (red dots), which then goes back into the river. Keep to the right, and find the pipes. Follow the pipes as they go behind a rock the size of a small car to find a path. Follow the path to fields, cross the fields to the right and pick up a road to return to the cars.

Automatisch importiert von Descente-Canyon.com für Canyon Merdurek Tous les points d'ancrage sont en bon état. Eau froide mais claire. 2,5 heures à deux. Une corde s'est bloquée lors du dernier rappel, et nous avons dû remonter sur corde. Un saut est possible à mi-hauteur ; il est donc préférable de récupérer la corde à cet endroit ou d'utiliser un point d'ancrage deux mètres plus loin. The super-nice Ahmed (broken English, otherwise BKS) from the village next door shuttled us to the entry for 20 euros, as we only had one car. According to his own information, he does this several times a day, so he's certainly happy to see more passengers □ The canyon itself was a dream, we walked it comfortably in a little under 2 hours. Rocks with good grip almost everywhere, some slides and jumpables Single hooks everywhere, even a chain anchor in two or three places Don't follow the misleading red marked exit on the left ;) (traduzione alternativa)

After a heavy thunderstorm yesterday, the canyon had a nice, comfortable water level today. We were geocache hunting through the canyon in a leisurely 1h50. (traduzione alternativa)

The narrow, steep access road has now been asphalted. For the way back you can get off orog. right after a wooden bridge and follow the path to a meadow. After the meadow, the widening path winds back towards the stream. Cross the stream at the ford where you meet the described way back. (traduzione alternativa)
