Specialità:		
Attrezzatura: Corde: 2x50m		
Sintesi: (traduzione alternativa) Relatively open rappel canyon		
Idrologia:		
Accesso: (traduzione alternativa) From Annecy, on the western shore of the lake of the same name, take the D 909 (from the highway, it is better to go around Annecy on the D 16) in the direction of Thônes or La Clusaz. When you have crossed (after about 15 km) the river Fier, you immediately turn left at a sharp angle towards la Balme de Thuy. Passing a saw, you cross the Morette, then immediately turn right uphill and put the car in the large parking lot.		
Avvicinamento: (traduzione alternativa) From the parking lot initially on a forest road in a roughly northerly direction uphill. Then turn right on a path that leads us up through the rock walls (with beautiful views). At a tree on the right of the path we find a signpost "16 CIRCUIT DES CASCADES". A little later we cross the Morette and descend on clear tracks to the left of the stream to the entry just above the clamping block.		
Giro: (traduzione alternativa) As the Morette is "accessed" via a so-called waterfall course, you can also start below the C45. With the high rappel in the stream, you should turn right (orographic) after the first 20 m in order to get out of the possibly strong stream as soon as possible. The waterfall visible from the main valley is only a drainage of the Morette.		
Ritorno: (traduzione alternativa) Out by the bridge and then right up the small tarred road to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Morette DC+ pour nous ce samedi, tous les rappels passent bien sans difficultés particulières en étant arrosé. Attention à la mousse qui s'est bien installée dans ce cours d'eau, on a vite fait de faire une belle glissade.Canyon parcouru avec Olivier et Kewin. Automatisch importiert von Descente-Canyon.com für Canyon Morette Joli canyon et de belles verticales. Un peu glissantÉquipement ok, sauf dans la dernière, 2 maillons sont présents, un ancien, et un récent mais non serré qui mérite d'être serré à la pince. Rappel de corde compliqué si vous décidez d'utiliser les 2 maillons (: (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2143/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Morette Le bras Est était en GD pour info. La partie classique était en débit correct. Équipement ok. Les 2x50m sont vraiment nécessaires pour la c45, car il y a des petits paliers à descendre sur le bas. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2143/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Morette Nous avons ouvert aujourd'hui le bras est de la Cascade Morette. Il s'agit de la haute cascade que l'on voit depuis le parking au scierie au début de la route.
