**Sintesi:** (traduzione alternativa)
Little-used "adventure canyon" with some gaps in the equipment. Some interesting passages.

**Idrologia:** (traduzione alternativa)
Medium-sized catchment area, still has a small glacier at the top.

**Accesso:** (traduzione alternativa)
You can park at the top by the soccer pitch.

**Avvicinamento:** (traduzione alternativa)
Long walk or about 20 minutes if you are shuttling. Attention, only walk past the shooting range when there is no shooting.

**Giro:** (traduzione alternativa)
Again and again beautiful places that are interrupted by blocks. Anchors were re-drilled in October 2025, but some places cannot be protected well, so it is better to have some climbing gear with you.

**Ritorno:** (traduzione alternativa)
At the bridge out to the car, which should be in the village parking lot.

Nice little canyon. Good water level. Not slippery at all. Anchors in eco mode. Not one too many. No duplicate anchors. Where you need an anchor, there’s one. Where there isn’t one, you have to improvise. Rappel down a log, rappel over a suitable clamping block, or downclimb. The existing anchors, however, are relatively new and in good condition. It was still quiet at the top during access, but by the time we picked up the car, the shooting range was in operation. (traduzione alternativa)

Probably the most rewarding canyon of the unrewarding ones, or vice versa, I can't decide. Rewarding because the rappels are very cool, unrewarding because there are simply too many 100m blocks between the good spots. (traduzione alternativa)
