Sintesi: (traduzione alternativa) Rappel canyon with a somewhat gloomy ambience in places. Not very vertical in the upper parts.		
Idrologia:		
Accesso: (traduzione alternativa) From Bellinzona, take the country road on the right bank of the Ticino towards Tenero and Locarno. Cross the village of Sementina and about 3 km after Sementina turn off the main road to the right into the village of Gudo. Directly on the road you will find the parking lot below the community and school. Out of consideration for local residents, please only use this parking lot.		
Avvicinamento: (traduzione alternativa) From the parking lot, walk to Via Malcarne and check the water level at the bridge. Continue uphill to the right on "Via In Cimalloco". When the road divides, keep left "Al Sasso Grande", there is another parking lot on the right. The hiking trail begins just behind it, which you now follow. Above the houses, the path is marked with a blue arrow and wave signs. Turn left twice to reach the bridge. After the bridge, keep right until you come to a path again, which you follow to the right. After a further 100 m, turn off onto a closed-off path. Follow this for about 5 minutes, then take the marked path down to the right within sight of the stream to the entry point.		
Giro: (traduzione alternativa) Mainly less vertical tour, without any cruxes. Despite the open character of the canyon, only a few emergency exits are obvious.		
Ritorno: (traduzione alternativa) Get off at the bridge that marks the entry to the lower part and descend the way you came up.

It was so warm that you could walk up in your swimming trunks. When you're at the entry at 12 o'clock, you always have sun on your face. Surprisingly little slippery. (traduzione alternativa)
