Accesso: (traduzione alternativa)
From Nice, take the N 202 up the Var for approx. 29 km to Plan-du-Var. Shortly after this village, turn right into the Vesubie valley. 19 km after the turn-off, you pass through Lantosque. About 1.5 km further on, park the lower vehicle at the La Dorgane picnic area. If you think there is too much risk of your car being broken into here, you can park it about 200 m further on at the road junction to la Bollène near an inhabited house.
With the other vehicle, turn right at the junction onto the D70, up to the village of Bollène and through it. The road continues above the canyon. You drive through a tunnel and at the next sharp left-hand bend at the edge of the slope there is space for the second vehicle (835 m above sea level), provided you haven't got up too late.

Avvicinamento: (traduzione alternativa)
From the parking lot, take the wide footpath down to the bridge over the Bollène.

Giro: (traduzione alternativa)
Forest gorge with slippery rocks and several jumps and slides.
Sometimes crowded, especially by commercial visitors; large slide better not from the top, but from the rope due to lack of control; long slide afterwards without any problems (but lying down!). Here it is also possible to jump out of the vertical wall from the left.
Please leave the water drainage untouched.

Ritorno: (traduzione alternativa)
After the last somewhat larger pool, descend on the footpath on the right bank, then later on a bridge to the left bank and out to the La Dorgane picnic area. It is important not to climb up to the village of Bollène.

Automatisch importiert von Descente-Canyon.com für Canyon La Bollène ça glisse un peu moins que d'habitude.Nous avons trouvé un sanglier mort flottant dans la vasque juste en dessous du premier "gros saut" qui enchaine avec un semblant de tobogan de 5 m.
