Specialità:		
Attrezzatura: Corde: 2x 50m		
Sintesi: (traduzione alternativa) Rappel canyon with a few small slides and a jump.		
Idrologia: (traduzione alternativa) As some rappelling routes lead right through the waterline, it is essential to check the water level carefully before the tour! Checking the water level: If you leave the main Bellinzona-Locarno road in Gudo, turn right at the "Cottini" restaurant and continue in the direction of "Cantina Ramelli", you will cross our stream. The steps below the bridge may be flooded to a maximum height of 5 cm.		
Accesso: (traduzione alternativa) From Bellinzona, take the country road on the right bank of the Ticino towards Tenero and Locarno. Cross the village of Sementina and about 3 km after Sementina turn off the main road to the right into the village of Gudo. Directly on the road you will find the parking lot below the community and school. Out of consideration for local residents, please only use this parking lot.		
Avvicinamento: (traduzione alternativa) From the parking lot, walk to Via Malcarne and check the water level at the bridge. Continue uphill to the right on "Via In Cimalloco". When the road divides, keep left "Al Sasso Grande", there is another parking lot on the right. The hiking trail begins just behind it, which you now follow. Above the houses, the path is marked with a blue arrow and wave signs. Turn left twice to reach the bridge.		

Giro: (traduzione alternativa)
The tour is scenically surprising due to the many palm trees that grow in the middle of the canyon. This is probably why Luca Nizzola named the canyon Ri delle Palme.

The ground in the stream is very slippery!

Ritorno: (traduzione alternativa)
After the last slide with a fixed rope on the left, you have reached the exit of the canyon. Follow the stream to the right until you reach a small bridge, then turn right downhill to Via Cantonale and left back to the parking lot.

Get out to the right and follow the path outside the private property to the bridge. Cross it and follow the road uphill to the car.

Halfway through the tour, there is an exit option to the left to the ascent path on a path that crosses the stream.

Automatisch importiert von Descente-Canyon.com für Canyon Progero (inférieur) DC-. Equipment good. I'd say it's v4 a2 II. Beautiful canyon. Lush vegetation, palm trees, very nice contrast with the austere classics in the Biasca valley. For the c32, the second to last waterfall, there's two intermediate anchors to fraction it. The best one you can go find by following the water jet to the left, and then it's on the right bank right around the corner. The second option is straight down, an overhanging anchor right in the canopy of a palm tree. I would recommend that anchor only to masochists. Parcheggiare direttamente all'uscita del torrente in prossimità del ponte, 5/6 posti auto invece di dove indicato. Livello dell'acqua abbastanza alto ma senza particolari problemi in torrente, armi sufficienti, alcune calate andrebbero riattrezzate con catene, in particolare la 30 metri(in fondo si e'inghiaiato quindi non fa rullo)
