Specialità:		
Attrezzatura: Corde: 2x30m		
Sintesi: (traduzione alternativa) Varied rappel canyon, can be violent with proper water flow		
Idrologia: (traduzione alternativa) http://www.saihebro.com/saihebro/index.php?url=/datos/ficha/estacion:A102		
Accesso: (traduzione alternativa) Coming from Lleida, we take the C-13 via Balaguer and Tremp in the direction of Pobla di Segur. Not quite 1 km after passing Tremp, we turn left off the C-13 towards Gurp. We cross a cordoned-off military area (barracks) and may be asked by the guard to identify ourselves. After a few kilometers we come up to Gurp. We drive up to the group of houses at the back and find a large area to park our car on the left.		
Avvicinamento: (traduzione alternativa) Already here signs show the way to the canyon. We set course for Font de Moli and a whitewashed spring house. We do not follow the markings that point downward, but continue at about the same altitude and come to the Barranc de Comes, which is joined a little above the Barranc de Llagunes. The Comes is an orographic. right side ditch of the Caramell. Here is usually the entry.		
Giro: (traduzione alternativa) 6 rappels, some possible jumps, a natural arch		
Ritorno: (traduzione alternativa) When the canyon opens up and the streambed becomes flat, we head out to the right at the oaks and keep heading up towards Gurp (markings sometimes a little confusing).		
Coordinate: Inizio del canyon 42.2319 0.8518 Fine del canyon 42.2254 0.8553 Parcheggio Entrata e uscita 42.2251 0.8481

Automatisch importiert von Descente-Canyon.com für Canyon Caramell Parti de la voiture sous la pluie, ça coule, même l'affluent avec les vasques pleine d'eau claire. super joli avec de l'eau , dommage que le ciel soit sombre. Merci à nos amis d'Artekania de nous avoir laissé passé sur leur corde. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21421/observations.html)
