Specialità:
Regenbach,

Attrezzatura:
Corde: 2x 30m

Sintesi: (traduzione alternativa)
Rain stream. Sequence of rappels in vegetation Emergency exit possible at any time.

Idrologia:

Accesso: (traduzione alternativa)
From Bellinzona, take the country road on the right bank of the Ticino towards Tenero and Locarno. Cross the village of Sementina and approx. 3 km after Sementina turn off the main road to the right into the village of Gudo. Park on the right-hand side of the road 300 m after the turn-off from the main road.

Avvicinamento: (traduzione alternativa)
From the parking lot, follow the road up to the right in front of the church and follow the path until you reach the road. Continue to the right here. After approx. 100 m, follow the path uphill to the left until you reach the road again. Continue to the left until you reach the stream.

Giro: (traduzione alternativa)
Absolutely rainy tour, almost always possible, whether heavy rain or melting snow.
Sequence of rappels up to max. 30 m. Some of the stands were a bit wobbly (as of 2021) and some of the trees with slings were questionable. Not recommended after periods of drought.

Ritorno: (traduzione alternativa)
Turn left out of the stream back to the car.

Coordinate:
Fine del canyon 46.1754 8.9532

A good alternative after the rain and storms—and it's fun at this water level, too (traduzione alternativa)

Slippery to walk. Ropes to make good use of the tree on the last thirty. (traduzione alternativa)

We did this trip in the late afternoon after heavy rain in the morning and afternoon. Good option if there is to much water in the other canyons.

Anchorages sometimes a bit adventurous but OK. Tolerates a lot of water. (traduzione alternativa)

With the current amount of water, many loose stones are being carried over the two C30s. For this reason, and because the pick has been removed from the last C30 (anchoring to a tree is possible), we left the route after the C8RD. A clearly visible path leads directly to the ascent route. (traduzione alternativa)

The stream was a good alternative after rain and more rain was forecast. The water level was slightly higher than the higher reference pictures from "Eldorado Ticino". At the first rappel at the bridge we attached an additional rope. IMPORTANT: the last 30 (penultimate rappel) no longer has an anchor. We then went out. The tree may also be ortographic. Right. The left tree is unsuitable. (traduzione alternativa)
