Specialità:

Attrezzatura:
Corde: 1x20m+1x30m

Sintesi: (traduzione alternativa)
(Formerly a) wonderful slide and jumping canyon.
Caution: At the exit of September 2020, the storm "Alex" triggered a mudslide that thundered through the entire canyon, causing a lot of destruction, especially in the grotto, and graveling up the rubber pits so that slides and jumps were no longer possible. Nothing has fundamentally changed since the exit in 2023. The canyon is accessible again, but has largely lost its special charm. The easiest way to read an update on the details is under "debits" at https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html. Here you can also find photos of ascents after "Alex".

Idrologia:

Accesso: (traduzione alternativa)
Above Breil-sur-Roya, follow the D2204 towards Sospel. After two hairpin bends, take a sharp right at some garbage cans and follow the mostly single-lane road to a large signposted parking lot.

Avvicinamento: (traduzione alternativa)
Follow the road briefly out of the valley and change to a sand road at the information sign. Follow the road until just before its exit and turn right at the signs onto a good path. Descend via many hairpin bends until a path branches off to the right just before reaching the streambed. Follow this path to the entry point at a large basin. You can also do the tour with just one car. Then park the car in La Giandola near the bridge and hike up the beautiful wall above the canyon - takes about 80 minutes.

Giro: (traduzione alternativa)
Of the 20 or so places, you can slide and/or jump at least 15.
It is better to go at inopportune times, as there are many groups (the first groups usually appear just after 9:00).
At the key point, the rappel into the cave, you can climb up to the right and rappel through a hole or even at the exit of the canopy. Good overtaking possibility.
About 100m later, there is an exit on the right up to the road.
Two traverses are set up as via ferrata.

Ritorno: (traduzione alternativa)
After a nice 5m jump, a clear path leads off to the left, which you follow to the mule track above the canyon. Follow this out of the valley down into the village.

Went today; all the stands were fine. Don't forget the flashlights for the cave! You can get by without them, but the flowstone formations are worth seeing. It took us 2 hours to get through the stream. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Maglia Première fois que nous refaisons la Maglia depuis la tempête Alex.Cela fait bizarre !!Beaucoup moins aquatique donc moins ludique qu'avant.Mais la Maglia reste quand même la Maglia.Un peu de nostalgie mais quand la nature reprend ses droits, il faut savoir rester humble !!L'équipement est ok, même si certains amarrages sont un peu haut.Quelques sauts sont à nouveaux possibles.Le passage dans la grotte reste emblématique !!L'eau était vraiment douce avec un débit correct moins. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2235/observations.html)
