Specialità:

Attrezzatura:

Sintesi: (traduzione alternativa)
Succession of waterfalls in alpine environment, very slippery with a flow that increases as it is boxed and by the contributions that it receives. Its flow must be taken into account because the facilities are not designed for a high flow. Its access and return are comfortable but its development is long due mainly to its first part totally dispensable, of which there are reviews that indicate that it can be avoided (if someone knows it, tell us about it).

Idrologia:

Accesso: (traduzione alternativa)
Access Artigue and Subra
From Tarascon-sur-Ariège on the N20, take the D8 to Vicdessos-Auzat.
Access Artigue and Subra
Pass Auzat and continue on the D8 towards Marc. As we leave the village we see a detour to the right to l'Artigue 2.5km. We park in the parking of l'Artigue the car of return.
The access car or if we take only one, we must park it one kilometer before, on the bridge over the river. Here we have a track on the left hand side where we will make the approach.

Avvicinamento: (traduzione alternativa)
Approx Artigue and Subra
By the track that leaves to the left of the bridge we go up to the 1500m level here we enter. You can enter higher and make the upper waterfalls, just below the dam. It is also possible to enter lower just before the waterfalls of the boxed area.

Giro: (traduzione alternativa)
Two parts, the upper one more open, slippery, full of projections, where it is difficult to advance.
The second part is boxed in, with rappels through the active and without the possibility of escapes.

Ritorno: (traduzione alternativa)
We arrive at the confluence of the rivers, cross to the road and walk to the parking lot or to the bridge.

Automatisch importiert von Descente-Canyon.com für Canyon Subra Canyon intégral fait à 2 en 7h30 avec pause repas au milieu. Il manque un amarrage au milieu du canyon au niveau d'une grosse pierre en rive droite, il y a 2 cairns qui indique un chemin sur la gauche pour contourner la cascade. Rappel fait au niveau de l'arbre. Quelques amarrages rouillés. Sinon RAS si ce n'est que c'est une patinoire ^^Très beau canyon plusieurs cascades à couper le souffle dont une où on passe sous un rideau de pluie. It's more of a forest and meadow ravine. It has a few nice sections, but it's definitely slippery. It's not a bad place to practice because it has a few rappel points. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Subra Partie finale du canyon faite après le canyon d’Artigue ! Partie avec de beaux rappels et intéressantes pour travailler les techniques de corde (ex.: debrayable du bas, déviation larguable). Les amarrages sont en bon état.
