Sintesi: (traduzione alternativa)
Aquatic rappel canyon with fun potential

Idrologia:

Accesso: (traduzione alternativa)
From the Autoroute du Rhône - exit Martigny/Fully - we drive through the center of the city and then to Salvan. From there via Les Marécottes in the direction of Le Tretien. In a bend to the right, the road takes course to the Triège and the bridge.\nIn this bend we find a large area to the left of the road where we park our car for the exit (P2 - see Google aerial photo approach).
With the second car we go back to Marécottes and there we go up on the left towards Cergneux. We come to the second right serpentine and turn left about 50 m later. Still before the bridge over the stream we park the car for the access (P1 - see Google aerial photo implementation route).

Avvicinamento: (traduzione alternativa)
We take the path that enters the valley of the Triège and then - before reaching the bridge - where the path rises again, we descend the path to the stream where we can rope down(E).

Giro: (traduzione alternativa)
11 rappel, some slide and possible jumps, until we end the tour with a jump into the pool in front of the dam (A).
Attention: During our ascent on 15.09.2020 - the local provider no longer goes the canyon! - the exit was much more difficult (eg doors in the tunnel locked), see photo album and video

Ritorno: (traduzione alternativa)
At the top of the metal walkway we go right through the tunnel (if door is not blocked!) to Le Tretien and from there on the road to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Triège Merci au guide rencontrer de mavoir permis dutiliser ça poulie pour la tyrolienne plutot que de descendre un toboggan dans l'actif. Pensez a sonder les vasques, bien que tout passais et tout sautais ce jours-ci. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21005/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Triège Equipement ok. Les sauts et tobogans habituels passent bien. Eau très fraîche par rapport à La Tinde. Débit correct + voire gros débit selon les critères DC. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21005/observations.html)
