Valutazione: ★ 2.5 (1)	Info: ★ 2 (1)	Belay: ★ 2 (1)
Specialità:		
Attrezzatura: Corde: 2x35m		
Sintesi: (traduzione alternativa) Rappel canyon without further attractions		
Idrologia:		
Accesso: (traduzione alternativa) From Frontenex, a suburb southwest of Albertville and directly on the A43, we drive to Raffort (Clery) to the Croix (cross) of Raffort, see https://www.google.de/maps/dir/45.6265754,6.3200684/45.640429,6.2821137/@45.6340055,6.2970168,2960m/data=!3m1!1e3 We park our car here.		
Avvicinamento: (traduzione alternativa) See map sketch at http://via.ferrata.alpes.free.fr/images/Les%20canyons/Tailles/topo3.jpg Alternatively, access can be made via 2 spring creeks, the southern one having about twice as much water flow as the northern one and also being somewhat more attractive. We took the first, northern spring stream.		
Giro: (traduzione alternativa) See topographic views, photos and video		
Ritorno: (traduzione alternativa) "From the base of the large final waterfall, continue for about twenty meters until you reach a tributary of the RD and arrive at a concrete ford. At this level, a left-hand path begins, which you follow for about forty meters until you find a fork. Take the path on the left that goes up along the cliff, leaving another path on the right. The path leads uphill in bends and near the ridge it turns right and goes downhill. We quickly reach a path that we take down to the parking lot" (translation of the text from http://via.ferrata.alpes.free.fr/html/Les%20canyons/Tailles.htm) At the fork, we took the path on the right on the water pipe through the tunnel, as the door was open there.

Automatisch importiert von Descente-Canyon.com für Canyon Tailles En mode rando dans les parages ! Gros débit ce jour (fonte des neiges en face Est du Grand Roc). Conditions optimales dans les prochaines semaines pour cette belle descente. L'équipement à l'air intacte, pas de trace de crue, ni de lave torrentielle. En sortie RG juste après la dernière cascade (cairn), une belle main courante a été installé sur le sentier du retour dans la montée. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2120/observations.html>)

2025-12-24 | System User | |📖|📍|🌊 Alto | 🚫 Non fatto

Automatisch importiert von Descente-Canyon.com für Canyon Tailles Demi tour pour nous ! Les deux affluents sont en débit bien corrects. Au vu des commentaires précédents, la confluence doit être en GD. C'est pas le mood du canyon d'aujourd'hui, ce sera pour une prochaine. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2120/observations.html>)

2025-09-20 | System User | |📖|📍|🌊 Normale | 🍏 Completato

Automatisch importiert von Descente-Canyon.com für Canyon Tailles Nous avons pris l'entrée 2. Petit débit puis après la jonction DC-. Chouette canyon ou les obstacles s'enchainent, ça glisse pas mal à certains endroit! Plusieurs relais mériteraient d'être ré équipé. Quelques spits, plaquettes et maillon bien rouillé ainsi que certains anneaux de cordes à changer. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2120/observations.html>)

2025-09-14 | System User | |📖|📍|🌊 Normale | 🍏 Completato

Automatisch importiert von Descente-Canyon.com für Canyon Tailles Merci pour le rééquipement et pour la super main courante sur le chemin de retour ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2120/observations.html>)

Secluded area. Steep access (best to come in from the north), steep approach, and equally steep exit (almost directly after the C33 on the left). Anchors aging, a couple are loose but backed up. Webbing to be replaced.
