Sintesi: (traduzione alternativa) Watery rappel canyon, cold water, slippery		
Idrologia:		
Accesso: (traduzione alternativa) From Breil-sur-Roya on the N204 north towards Tende, Cuneo. Shortly after the village of Fontan (about 8 km until then), we take the D42, which turns left (northwest) towards Berghe. The road crosses the Céva and climbs in switchbacks. After the third switchback, the road passes under a railroad viaduct. At the following rightward haipin bend, park the car on a large flat area right next to the railroad track.		
Avvicinamento: (traduzione alternativa) We continue uphill along the road until the next but one rightward haipin bend (red map marker "W"). From there, a path leads to the hamlet of Paioret. After the last building, take the path down to the left. Follow the water pipe for a while and then take the tracks down to the stream bed until you reach a bridge.		
Giro: (traduzione alternativa) 5-8 rappels. The 45 m fall with an intermediate belay after approx. 18 m, followed by a diverter 6 m before the pool to stay safely out of the water jet. Can be jumped from the diverter.		
Ritorno: (traduzione alternativa) At a concrete wall ortographic. Exit to the left and then cross a small tunnel (headlamp useful). Then carefully cross (active) railroad tracks directly to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Céva Canyon réalisé en ce jour à trois. Déjà très glissant sortie en freestyle sur la gauche de la 45m en mode mike Horn et sortie sous les granges tels des sangliers. A faire une fois pour le cadre magnifique (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2837/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Céva Pour la deuxième partie de l'approche, faut suivre le tuyau.Canyon bien équipé, mais équipé au minimum.Le relais sur le 40m n'est pas vraiment obligatoire, mais c'est utile. Pour y arriver il faut descendre sur la première verticale et grimper un peu sur le rocher glissant pour continuer jusqu'à un peu plus bas, il n'est pas visible du premier point.Canyon à faire. Automatisch importiert von Descente-Canyon.com für Canyon Céva Parcouru le 31/07/25 (club SCPA Escandaou). Un peu galère de trouver le début du canyon mais on fini par arriver à l'eau. Beau rappel de 45m, glissant par endroit (penser à apporter de la corde à laisser). Equipement correct (plaquettes + goujons) Canyon à faire une fois, pas nécessairement plus. Description updated. Varied canyon with a 40m rappel as an absolute highlight. Very slippery overall. (traduzione alternativa)
