Sintesi: (traduzione alternativa)
Rappel canyon with magnificent views over the Verzasca Valley. Particularly beautiful in spring, as it is sunny and still full of water.

Idrologia:

Accesso: (traduzione alternativa)
Coming from Locarno, turn into Valle Verzasca in Gordola and follow the road to Lavertezzo, passing through Motta (small bar on the left). Shortly afterwards you cross the stream and reach the parking lot on the left behind a second stream (June 2023 CHF 5/day).

Avvicinamento: (traduzione alternativa)
From the parking lot, follow the road back towards Motta. A staircase and an access road to a meadow appear on the left, which you follow. At the edge of the forest, a small path branches off to the left (blue markings from RIC 2018, arrow with wavy lines). Follow the path over the stream and turn right uphill in front of a dilapidated cottage (blue marker slightly set back). The path becomes increasingly steeper the higher you go. For the last 10 minutes, the path is exposed and follows the canyon rim. A few meters are secured with a thin wire rope. Shortly afterwards, you reach rocky ground and find yourself at the entry point by a small pool with a view.

Giro: (traduzione alternativa)
Right at the start, you reach a 200 m high wall, which ramps out in easy steps and smaller ledges towards the exit. This is followed by many abseils and the trees line the descent.

Ritorno: (traduzione alternativa)
After the last rappel, turn left onto the meadows and then right along the road back to the parking lot.

The water level was nice after the rain last night. At the bridge, we turned toward Valegg del Pian. (traduzione alternativa)

Some anchors are only single anchors and not double. The placement of the anchors is logical and they are in good condition. (traduzione alternativa)

Option for floods, certainly more of a viewing stream than a canyon. (traduzione alternativa)
