Specialità:		
Attrezzatura: Corde: 1x30m		
Sintesi: (traduzione alternativa) Attractive jumping and rappel canyon with warm, green water.		
Idrologia:		
Accesso: (traduzione alternativa) From Dolceacqua drive up the valley in the direction of Rochetta Nervina. Park in the large parking lot in the village (2023: 8 euros per day, 1 euro per hour, free for motorhomes at night). Water tap at the sanitary building/back wall. Shower in the sanitary building - only open during the day.		
Avvicinamento: (traduzione alternativa) Cross the stream and on the other side of the village follow the signs to a mule track ("Sentiero 13"). Follow the path for 35 minutes to a signposted junction and take the lower path. You soon cross the landslide zone with two large rock debris below the path and then reach the entry point at the Ponte Cin bridge. Fee for ascent - 2023 collection hut was not yet occupied at 08.45 h.		
Giro: (traduzione alternativa) Entry is at the bridge over the stream. Here you can jump directly to 8.6m (descente). In the following, jumps up to 12m and small, well-equipped rappels up to 10m alternate. In the lower third there are wonderful tuff formations similar to the Maglia. After a rappel between huge boulders, the canyon opens up. The last point is the jump from the dam wall. Bathers are often to be found here. Watch out! There is a place (picture 12 shows it from below) that is often used by commercial operators to build ropeways. There is a VERY well-equipped belaystation on the left which is only moderately suitable for rappels as the rope tends to get stuck in a crevice here. If you are rappelling, then rather orog. right a little further ahead. You can jump at this point, but it is essential to check out the spot carefully. The pool looks much deeper from above than it is and is full of large stones. The water level can best be assessed at the entry. There are no obvious canyons in the critical part of the canyon. The "signposted" emergency exits described by descente are non-existent. In some places, the slope can certainly be climbed with difficulty on the left. There are plenty of places to get out of the water.		
Ritorno: (traduzione alternativa) Quite laborious through the blocked streambed until you reach a bathing area below an artificial step. Turn right here on a good path back to the village.

Dopo violento acquazzone di ieri, alcuni tronchi nuovi sul percorso e qualche foglia, ma sempre ambiente spettacolare

canyon was beautiful, payment required, small kiosk at begging of entry walk, 5 euros per person , cash only at kiosk (potential discount for qualified guides) can also be paid online at riobarbaira.it, more than worth it for quality of canyon + facilities at takeout.

2 days later after some rain even higher waterflows, but still manageable .

Much more water than last year august, but easy managable with all the various hooks in the rocks so you don't have to abseil in the stream.

Late April weather with a mix of sun, clouds and rain. Still a dream of a canyon. All jumps doable and lots of water (traduzione alternativa)

Very exciting canyon! High water level. Anchors in excellent condition. Lost a camera (DJI Osmo) in the deepest pool (Photo 20/21) so if anyone should find it let me know!

A few hours later we went again, as we met two friends. And the sun came out too, making the canyon a 5 out of 5. What an experience. Great play of colors. (traduzione alternativa)

A fun canyon that is second to none. Everything except the last rappel in the jungle passage is jumpable or downclimbable. Unfortunately there is no sun in the canyon, but it is still huge and beautiful. Anyone who likes jumping has to go here. Many jumps can be repeated. (traduzione alternativa)

Everything tip top. The day before some rain corresponding to good water level for early September. (traduzione alternativa)

Info on parking & sanitary facilities already incorporated. Early on the road, therefore only visual contact with another group. Stands ok, all jumps possible, including the first from the arch bridge. (traduzione alternativa)

Super canyon with many jumps. Except for one abseiler everything can be climbed or jumped. Partly high jumps possible around the 10m Beautiful sinter formations with moss However, very crowded - therefore either very early or late to enter - also a problem for finding a parking space (traduzione alternativa)
