Paese: Deutschland / Germany **Regione:** Oberbayern / Upper Bavaria **Sottoregione:** Landkreis Garmisch-Partenkirchen **Città:** Oberau		
Difficoltà: facile	**Grado:** v2 a2 II	**Tempo totale:** 2h10
Tempo avvicinamento: 15min	**Tempo giaro:** 1h30	**Tempo ritorno:** 25min
Altitudine di entrata: 920m	**Altitudine di uscita:** 710m	**Altitudine delta:** 210m
Lunghezza del canyon: 300m	**Rapel più alto:** 15m	**Quantità rapelli:**
Transporto: a piedi	**Tipo di roccia:** limestone	**Area di ingresso:** km²
Stagione:	**Orientamento:** Est	**Tempo migliore:**
Valutazione: ☆ 1.8 (3)	**Info:** ★ 3 (1)	**Belay:** ★ 2 (1)
Specialità:		
Attrezzatura: Corde: 1x30m		
Sintesi: (traduzione alternativa) Short rappel canyon		
Idrologia:		
Accesso: (traduzione alternativa) From the B 2 between Eschenlohe and Garmisch-Partenkirchen in Oberau at the southern end of the village turn west onto the B 23 in the direction of Ettal, Oberammergau. The road rises continuously after the village and reaches the Ettaler Sattel (altitude 880 m) after about 3.5 km behind a long left-hand bend and the following right-hand bend. Park your car here.		
Avvicinamento: (traduzione alternativa) Short variant (to the lower entry about 15 min.):\nFrom the parking lot about 100 m back on the B 23 to the last bend. In the bend, a forest path branches off to the right (south). After a few meters it branches. Take the left path and follow it downhill. It approaches the Giessenbach stream. Later, a path leads along the Gießenbach on the orographic left side slightly uphill and finally reaches a dam where the upper Gießenbach is diverted into a gallery. Here or shortly below the dam is the entry to the short variant.\n \nLonger variant with additional river walk (to the upper entry approx. 25 min.):\nAt the top of the parking lot, follow the forest road up to the south, a little later to the southeast in the direction of Roßalm. After a short ascent, the trail continues southwest after a right turn and becomes horizontal. After a good kilometer, the trail almost reaches the streambed and you can easily descend into the streambed.		
Giro: (traduzione alternativa) In the long version (2.5-3 hours in total), the Gießenbach is a scenic "gravel traverser" with a few short downclimb and, if necessary, downclimb sections.\nOn reaching the dam and the resulting water drainage, the short version begins. The lower part is a short rappel canyon with a very low water flow, which is especially suitable for beginners (none of the 9 rappels is higher than 15m) and which can also be done in passing. It is low-risk, because there are always exit possibilities (to the left). Wantonly destroyed belays indicate a conflict with the fishing rights holder (?). The canyon is located in the nature reserve Ammergebirge, the largest NSG in Bavaria.		

Ritorno: (traduzione alternativa)
At an old dam you reach the bottom of the valley at about 710 m altitude. Now follow the path downstream, you will see a streambed on the opposite bank and after about 200 meters you cross over to the path on the other bank (not the path to the streambed!), where it runs level with the streambed. Follow this so-called Kienbergweg uphill, reach the old Kienbergstraße and later (just before the left turn) the B 23. After the following right turn you are back at the starting point.
You can also start the tour from down here (park your car at the stream in Oberau) and then turn left from the Kienbergweg onto a grassy forest path. This mutates into a path that heads for the dam and thus leads us to the entry,

Only a few hooks still turned over, but securing basically fine. Parking at the top costs 6 euros for whole day and 4 euros for 4 hours (is controlled). Water throughput as usual pretty poor. (traduzione alternativa)
