Valutazione: ☆ 3.7 (4)	**Info:** ★ 2.5 (2)	**Belay:** ★ 3 (2)

Specialità:

Attrezzatura:
Corde: 1x 30m

Sintesi: (traduzione alternativa)
Watery rappel canyon in red limestone

Idrologia:

Accesso: (traduzione alternativa)
From Nice up the Var. In Puget-Theniers, turn right and head north on the D 16 towards Le Croix sur Roudoule. Leave the turn-off to Puget-Rostang on the right and continue uphill until the road rises well above the level of the stream and an old stone bridge appears next to/under a new suspension bridge. Park here in the marked parking area in the middle of the road.

Avvicinamento: (traduzione alternativa)
Continue along the road and cross the junction for La Croix sur Roudoule until you reach the signpost with the number 233. Follow this path to the left down to the stream.
For access via Amarines see there, via Croc see there.

Giro: (traduzione alternativa)
The canyon lives through its colors (dark red limestone, gray-blue or even red slate sand, light limestone). No high rappels, lots of downclimbing and walking.

Ritorno: (traduzione alternativa)
Immediately after crossing the fourth bridge (counting the bridge at the entry), turn left up the path that leads up the orographic left slope to the road, then 300 m along the road to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Roudoule Enchaîné après Croc, toujours aussi sympa. Fait avec Math-04 et Tomfvr. Malgré la sécheresse, toujours de l'eau dans Croc-Roudoule, très bien ! + D'infos Nico 0618522515 (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/255/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Roudoule Superbe encaissement, de beaux passages (notamment l'arche), un bon débit d'eau. Par contre une eau trouble (rouge) qui freine considérablement la progression et nécessite de tester les vasques. Sortie après le pont génois, soit le 3ème pont sous lequel passe la clue (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/255/observations.html)
