Sintesi: (traduzione alternativa)
Open rappel canyon in orange red shale

Idrologia:

Accesso: (traduzione alternativa)
From Nice 54 km up the Var valley on the N 202 towards Digne. Then turn right (north) onto the D 28 into the Vallée de Cians. First through the Gorges de Cians and later in serpentines into the upper canyons. About 17 km after the turnoff, you pass through two tunnels at the "Petite-" and the "Grande Clue". About 200 m after a red wall with inscription plates (behind it a drinking water tank) we park a vehicle just before the next tunnel (between this and the next tunnel the road crosses the Challandre).\nWith the second vehicle (if available) we continue for 2.2 km. Here at the marker post "70" we park it.

Avvicinamento: (traduzione alternativa)
From the marker post "70" (1250 m a.s.l.) we follow the path that first goes up in serpentines and then moves south along the slope with a moderate gradient to a col (= saddle; 1460 m a.s.l.). Here we leave the path and follow another one on the left down to the Challandre. A few hundred meters we can follow the stream downhill without already having to put on the wetsuit.

Giro: (traduzione alternativa)
At the beginning river walk, then 12 rappels in an open canyon with southern exposure, hardly any jumps or slides, water mostly naturally turbid.
Great ambience.

Ritorno: (traduzione alternativa)
After the last waterfalls - which you can also bypass on the left bank - right up to the road and around the right tunnel outside to the lower vehicle.

Automatisch importiert von Descente-Canyon.com für Canyon Challandre Attention : le point GPS de l'application pour le départ est mal positionné. Il est deux fois trop loin. Se fier au panneau qui indique le canyon. Sinon, descente agréable. Beau canyon. Glissant mais spectaculaire! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2153/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Challandre Magnifique canyon. RAS niveau équipement. La partie marche est un peu longue et très glissante mais à partir de l'obsctacle 13 les cascades s'enchainent les une après les autres. Automatisch importiert von Descente-Canyon.com für Canyon Challandre DC- Canyon super ludique contrairement à ce que le topo (Canoyning Alpes-Maritimes 2026) pourrait laisser penser. Voici le topo avec ce qu'on a trouvé :C4 -> C6 -> C11 (SP5) -> C13 (SP5) -> C5 (SP5) -> C5 -> C8 (SP5) -> C9 (T4) -> C9 -> C12 (T9 éjectable, descendre un peu avant de se lancer) -> C16 -> C7 (SP7) -> C11 (T11) -> C10 -> C20 -> C11 -> C8Je me suis peut-être embrouillé dans les notes / avec le topo, aux alentours de la C16, il faudrait le répéter pour confirmer. Bien évidemment il faut sonder les vasques et certains saut / tob sont techniques. Mais franchement c'était du pur bonheur !
