Specialità:

Attrezzatura:
Corde: 2x45m

Sintesi: (traduzione alternativa)
Rappel canyon, attractive, also because of the views

Idrologia:

Accesso: (traduzione alternativa)
From Annecy on the N 508 along the southwest shore of the lake of the same name via Duingt to the south end of the lake at Bout-du-Lac (17 km from Annecy). 2 km further on (i.e. after 19 km from Annecy), the D 909 branches off to the left in a northerly direction to lead to Talloires on the eastern shore of the lake.
However, we turn south in the exact opposite direction, then drive through Doussard in an easterly direction and continue in a southeasterly direction to Saury (about 3.5 km from N 508). Here we park the car near the bridge.

A half-hour (16.5 km) transfer is also possible, see
https://www.google.de/maps/dir/Association+Jeunesse+Feu+Vert/45.7758606,6.1878988/@45.7933701,6.1729808,13.56z,
Then it's about a 30 min walk to the entry.

Avvicinamento: (traduzione alternativa)
From the bridge we take the tarred road uphill in a southerly direction for a few meters, but then immediately turn right onto a dirt road that leads uphill on the left past a house at the edge of the forest. We then follow the subsequent footpath over a footbridge (below the mine) in a northerly direction and reach a wide road. Continue uphill on this in switchbacks until we approach the canyon in a southwesterly direction. Where the road (at about 970 m above sea level) describes a bend to the right (on the left below the mast of a power line), a path leads southward steeply down into the streambed.

Giro: (traduzione alternativa)
Attractive tour (without running trails) that continuously opens views of the wooded valleys.
Good to combine with Fontaine Fayard, Montmin or Frontenex.

Ritorno: (traduzione alternativa)
At the water intake, turn right and follow the serpentine path down to the already known footbridge and then return to the car on the approach path.

Automatisch importiert von Descente-Canyon.com für Canyon Mine L'équipement en place est parfois hasardeux sans pour autant être rédhibitoire, on retrouve du monopoint, des anneaux, goujons... En tout cas, il est utile de prendre sa clé pour visser et vérifier les amarrages. En tout cas paysage magnifique ! Descente au top ! De la manip, et de l'eau c'était une bonne journée ! Automatisch importiert von Descente-Canyon.com für Canyon Mine Une vraie patinoire.Magnifique mais mérite un peu plis d'eau qu'en cette fin d'été... (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Mine Filet d'eau correct pour la saison. Les vasques sont propres.Équipement RAS, à l'exception d'un point de départ de main courante RD avant la C40 (la broche bouge). Automatisch importiert von Descente-Canyon.com für Canyon Mine Vraiment très peu d’eau. Ça reste joli mais bon on en aimerait plus. Équipement très hétérogène, il y a de tout. Les MC en places ne sont en effet pas utile mais en gros débit tu dois être bien content de les avoir ! Glissant (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Mine Petit débit correct.Est-ce vraiment utile ces mains courantes qui décolorent tout l'été en plein soleil.....L'un des deux points de main courante d'accès à la C40 mériterait d'être changé, ça bouge ... Et plus globalement ce pied de cascade mérite une mise à jour (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Mine Très faible débit a cette période. Canyon très sauvage avec de beaux rappels. Équipement RAS mais sol très glissant tout au long de la descente (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2141/observations.html)
