Specialità: fun creek,		
Attrezzatura: Corde: 2x 25m		
Sintesi: (traduzione alternativa) Attractive fun canyon with lots of slides and possible jumps.		
Idrologia: (traduzione alternativa) https://www.hydrodaten.admin.ch/de/2436.html The discharge rate should not exceed 400l/s! When it rains, the level paths extremely quickly.		
Accesso: (traduzione alternativa) Via Lucerne; about 20 km southwards then turn right off the highway in the direction of Interlaken, Sarnen. Approx. 3 km later, turn off again towards Alpnach. At the beginning of the village you cross the Chli Schliere on a bridge. Immediately after the bridge, turn right onto the dam road and follow the orographic right bank of the Chli Schliere upstream as far as you can (approx. 3 km to the Kehrplatz). Description Shuttle: There is also a driveway on the orographic right side of the Chli Schliere up to the hamlet of Moosmatt (825 m a.s.l.) From here, largely horizontal access via footpath to the bridge (commercial practice). With a second car, return a good 2 km along the access road. At the bridge, change to the other side of the stream and - initially along the banks of the Chli Schliere again - continue uphill in (6) serpentines until you reach a barn with a turning area after 3.2 km (from the bridge).		
Avvicinamento: (traduzione alternativa) From the car at the turning area near the barn (730 m above sea level), take the horizontal hiking trail in a westerly direction until you reach the streambed at the bridge - finally descending in serpentines. If you only have 1 car available, drive as far up the orographic right bank as possible, finally along a gravel road to the indicated parking lot. At the exit of the gravel road, follow the path on the orographic right bank for just under an hour to the entry point at the bridge.		
Giro: (traduzione alternativa) So-called fun canyon; but when the water level is high, it is not always easy to swim out of some of the eddies. Be careful when jumping (Harakiri) into the third pool (S 3). Be sure to check the pool below the water surface as there is a rock that is invisible due to the turbidity of the water. Possible jumps are on the far right of the rock face, as there is a large rock under the waterfall in the remaining area. At the 6th pool (C4/S3) you can jump and slide down the wall on the so-called jumpslide. Heavily frequented commercially, especially in summer and at weekends. The flow rate should not exceed 400l/s! When it rains, the level paths extremely quickly.		

Ritorno: (traduzione alternativa)

At the exit of the canyon at the first slide brake, turn right onto the path and continue to the car.

Integral ascent with hanging ropes. Anchorages all top - fixed ropes from the commercial ones already set up for the coming season. Attention at the Harakiri jump - here the fixed ropes are not long enough to rappel! (traduzione alternativa)

Very icy. Stones in the main stream slippery. Crampons or at least grötel obligatory. (traduzione alternativa)

Water quite clear for the Chli Schliere, but the pools are not visible. Water temperature 17 degrees. Fixed ropes mostly in order, the one at the cannon tube has a damaged sheath. The pool at the jump slide is quite shallow and there are rocks nearby. Here you have to hit the more distant chute. The pool at C9 after the Arch is currently about 2.5m deep, but jump and slide are possible. Otherwise everything as usual with the exception of the S9 option at the beginning of the 2nd part jump and slide. (traduzione alternativa)

Lots of slides and jumps possible. The water is tainted brown, so inspection is mandatory... Full of commercial bolts and fixed ropes, which makes access quite easy.

Automatisch importiert von Descente-Canyon.com für Canyon Chli Schliere Toujours aussi beau malgré la couleur de l'eau qui laisse a désirer! Fait après une petite averse on était plus sur un DC+, vraiment sympa par ce debit. Canyon Toujours autant équipé pour permettre d'éviter certains obstacles dont certains toboggans assez effrayants vu d'en haut. Quelques drossages dans certaines vasques.
