Avvicinamento: (traduzione alternativa) From parking lot across the creek --> to the right --> signage of Rio Formiga --> follow the path to a large rock roof with masonry below --> here take the very steep path r. next to the already cut gorge part (Attention! the more dangerous path goes below. 2. better path goes a little above) --> now continue the path to the steel rope traverse --> this leads directly to the entry (1st rappel point) to the streambed (R8).

a beautiful short tour with very easy access, alot of jumping potential (especially for those who enjoy precission jumps), although we left the car park by 8:45 we were not that first in the gorge and as we returned there were more than 30 cars, here an early start pays. the tour itself starts off with a fun enclosed section with jumps and abseils culminating in a slide/jump/ab with a beautiful cave behind, shortly after a siphon which if necessary could be climbed but is easily swam under, the following 1 km is a mix of Stepped stream bed with short enclosed sections, we exited at the point where the ascent path briefly meets the stream bed.

A lot of water but easy to walk on. 50cm thick foam carpet in front of siphon. We climbed over it. (traduzione alternativa)

Currently clear and beautifully flowing water. Stands tip top. The siphon has to be swum through at the bottom, but no problem. Beautiful canyon, without much difficulty. (traduzione alternativa)

Not a particularly long canyon, but one that offers a lot of fun. Video of the tour:
