Specialità:

Attrezzatura:
Corde: 2x30m

Sintesi: (traduzione alternativa)
2 larger waterfalls 25/30m; curved chute; few pitons; emergency exit possible several times; danger of falling rocks; rather shady; in spring there is often an avalanche cone in the canyon for a long time; cold water.

Idrologia:

Accesso: (traduzione alternativa)
From Salzburg south --> over the Walserberg border --> towards Lofer --> after the tunnel at the border turn right towards Unken --> in the village turn right up into Heutal (steep road) --> drive to the exit --> park at Gasthof Heutal.

Avvicinamento: (traduzione alternativa)
From the inn Heutal follow the path behind the house to the small stream --> after the small bridge follow the path for about 200m --> after a wooden fence passage you can already see the first waterfall (entry).

Giro: (traduzione alternativa)
The tour is except two high waterfalls rather easy --> not to be underestimated are the slippery places --> at an old hermitage is the first waterfall about 25m high (use tree right as a fixed point) --> it follows a varied streambed with several small rappel points and small jumps --> in the middle part comes a beautiful rock breakthrough through which you can rappel --> kl. Curved chute --> you can also see a beautiful tributary on the right (Staubfall: see description Staubfall) from which the water falls over the hiking trail into the canyon --> be careful in snowy winters the avalanche cone in the lower part of the canyon can remain for a long time --> there you also meet the second high ca.30m waterfall (good place to stand) --> after the second waterfall you no longer need ropes --> the easier exit would be down the right at the wooden bridge that leads over the stream, but this is on the German side where canyoning is prohibited.

Ritorno: (traduzione alternativa)
Directly at the Staubfall (N47.67020000°, E12.64850000°) first over tributary then over steep slope or. right from the waterfall up to the hiking trail (border D/AT). Here follow the marked hiking trail on the right across the forest path back to Gasthof Heutal (parking lot).

A nice canyon, a good alternative when it rains. The stream can handle plenty of water. Currently very slippery in places. Some jumps are definitely possible. (traduzione alternativa)

Fun trip. Bolted for guiding. Some nice jumps, slides, and abseils. Very open and low commitment. Could walk up to the walking path in a lot of places. It is worth it if you’re close by.

Automatisch importiert von Descente-Canyon.com für Canyon Fischbach (im Heutal) In the summer, a beautiful, simple canyon, suitable even for beginners.In the fall, great for testing your heat (coold :D) tolerance.A few nice jumps (deep pools) and abseiling. Beautiful scenery.Paid parking (cash only), in the winter season we paid 3 euros/day. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23491/observations.html)

Funny stream with opportunities for jumps, slides and rappels. In spring very long cold in the lower part, here is long snow. After the last high rappel keep right, left very slippery. Directly at the Sulzer waterfall orthographic left (Seen from the fish stream orthographic right) the exit is somewhat overgrown but good. On the holding rope a tree has fallen and pushed it down. Nevertheless doable. If the last high rappel is not made can be exited right before. (traduzione alternativa)

Fun Canyon. Many jumps can be repeated. Is also commercially walked a lot. There were four commercial groups on the day. (traduzione alternativa)
