Sintesi: (traduzione alternativa)
Nice tour for beginners and children with many short rappels (most of them can also be downclimbed) and pools. There are no serious difficulties on any of the rappels. Nice rappel at the end, can be abseiled several times (bypass route).

Idrologia:

Accesso: (traduzione alternativa)
Hall /Mühlau, follow the road to the Sankt Benedikt youth center. Directly after this is a small parking lot, from here driving is prohibited.

Avvicinamento: (traduzione alternativa)
Always follow the forest road. This initially runs alongside the stream and then turns left after 500m up the slope. Alternatively, you can continue straight ahead (sign "Wasserfallrundweg"), after 50m (sign "Kreuzmauer") follow the path steeply uphill to the left until you reach the forest road again. At the next hairpin bend in the forest road, you can take a shortcut to the right along a steep path past a wayside shrine. Then flat through two tunnels, and then right along a forest road to the water extraction point. Climb in below the water extraction point.

Giro: (traduzione alternativa)
Relatively open, sunny rocky gorge in the dolomite. The dam above takes almost all the water in summer. Very good and plentiful protection (chain anchors and bolts with fixed carabiners). In the upper part there are many small abseils and possibly small slides. When the canyon opens up, a short walking passages before a series of slides up to 2.5m leads to the final waterfall - a beautiful 25m waterfall with an audience.

Unfortunately, all the pools were completely covered in gravel (except for the small pools directly in front of the last waterfall), so you could neither slide nor jump. Not a particularly enjoyable experience. (traduzione alternativa)

2nd tour of the day before the thunderstorms arrive. The canyon is well cleaned, belays are new and very plentiful. Unfortunately hardly any water flow, but the rock was not slippery except for the last waterfall. 1.5h for three. Dead animal in one of the pools. (traduzione alternativa)
