Anchorages all top - always at least two glued anchors available. There was no more water in the canyon, which is okay for June. The hundreds of flies in the canyon were a bit annoying. The last three rappels are the real highlight with really great views. You don't necessarily have to swim in order to then walk up the gravel slope from the headland. You can also walk over the bank stones, with cairns marking intermediate passages. Tip: Once at the top of the road, walk the approx. 100 meters to the bar and recover there. You can skip the first rappel from the guardrail, as you can enter the canyon directly (especially as my rope got stuck at the top). (traduzione alternativa)
