Automatisch importiert von Descente-Canyon.com für Canyon Folhado Beaucoup de chutes d'arbres et de coulées de boue dans la gorge. De beaux passages isolés, mais dans l'ensemble, c'est la moins belle des gorges « Inferiore » des environs. Les installations sont en bon état. Avec Michael Jordan. Automatisch importiert von Descente-Canyon.com für Canyon Folhado Not worth to do it. Better walk through the levada-tunnel to Hortela. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/23909/observations.html>)

We didn't like Folhado at all. It's better to walk further along the Levada do Seixal through the tunnel and do the Hortela inferiore. (traduzione alternativa)

Nice canyon, more reminiscent of a canyon in the jungle. Access via the Levada do Seixal is no problem. In the canyon itself there is a spot with lots of trees. The pools are all very shallow and the rocks are sharp-edged. The last third is really beautiful. The placement of the belays on Madeira is really special: high rappels are often only accessible as intermediate belays and then free-hanging. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Folhado Un acces sportif par endroits, mais qui en vaut la peine ! Folhado est un canyon dans lequel on ne marche pratiquement pas. Les rappels se succèdent, faciles au début, ils deviennent plus beaux et plus difficiles au fil de la descente. La fin, après la confluence avec l'Hortela, est très spectaculaire. Malheureusement, le canyon est diablement glissant, ce qui rend la progression pénible. Tous les ancrages sont en bon état, seul l'un d'entre eux nécessite un resserrage de vis.L'eau est certes très fraîche, mais ce n'est que vers la fin que l'on a beaucoup de contact avec l'eau.Les parois sont remarquablement vertes.
