Sintesi: (traduzione alternativa)
Grippy limestone; short open canyon; multiple exits; no high rappels; small catchment area approx. (4Km²); clean water.

Idrologia:

Accesso: (traduzione alternativa)
Coming from Villach, drive into the Drautal valley as far as Fellbach --> shortly before the end of the village, a forest road goes up into the forest on the left --> from the beginning of the forest road, still on the valley floor, there is now a forest road no driving sign, but I don't think this has been officially erected --> after a group of houses the road forks --> continue left to the bridge --> park on the right side (few parking spaces).

Avvicinamento: (traduzione alternativa)
Pass the bridge on the right (hiking trail) --> you will pass a water level measuring station (inlet in the lower part of the canyon) --> continue up the trail until you reach the forest road --> then follow the forest road up to 980Hm (bridge over stream) --> from the forest road you have several opportunities to look into the canyon.

Giro: (traduzione alternativa)
After a short walking passages and small slides follow several small steps which can be partly rappelled outside of the water flow --> arrived at the weir you have an approx. 10m rappel point in a deep pool --> after the weir there are a few small mostly unproblematic rappel steps (slides) --> the canyon, which is suitable for beginners, is very open and at higher water levels still well doable --> in addition there is the possibility to get off almost in the entire canyon course on the forest road.

Ritorno: (traduzione alternativa)
After the last step and a short walking passages in the stream, you reach the forest road on the right and return to the parking lot in a short time.

Automatisch importiert von Descente-Canyon.com für Canyon Weisse Schlucht Fait à 6 dont 4 enfants. On s'est garé environ 600m avant le pont sur la piste. Le canyon est plutôt mignon mais malheureusement engravé. Pat de saut ni gros tob possible. Au niveau du barrage "à dents de sabre", il y a un super relais au dessus du bloc de béton en rive gauche (un peu chiant a aller chercher) permettant d accéder à un second, tout aussi neuf, pour passer loin du flux. Par contre il faut compter 20/25 m de corde pour descendre en one shot depuis le premier relais. Le reste des équipements est plus vieux mais tient encore la route, sauf le relais rive gauche a l entrée de la dernière jolie section, la corde qui relie les point est cuite (j avais plus rien sur moi). Après cette dernière section, marche dans le lit jusqu' au pont. 3h de voiture a voiture en prenant le temps.On a vu personne. Once again after many years. Had my 9 year old son with me for the first time today. All stands OK. At the bottom of the valley in Fellbach, at the ascent there is a no driving sign on the forest road, I don't think it's official, but I drove up anyway. I also met people up there, nobody meant anything, just greeted them friendly. (traduzione alternativa)
