Specialità:		
Attrezzatura:		
Sintesi: (traduzione alternativa) High alpine and watery rappel canyon		
Idrologia:		
Accesso: (traduzione alternativa) As with Artigue, cf. there		
Avvicinamento: (traduzione alternativa) First we take the trail towards Pic d'Estats, Montcalm, Refuge de Pinet. After reaching the refuge, we follow the cairns towards SW and then enter the canyon on fixed ropes. For other entry points, see http://www.descente-canyon.com/canyoning/canyon-description/21559/topo.html.		
Giro: (traduzione alternativa) Rappel from pool to pool—nearly 40 in total See photos and video		
Ritorno: (traduzione alternativa) When the canyon flattens out, we continue a little further in the streambed and then exit to the right onto a path that takes us to the approach trail. Follow it down to the parking lot.		
Coordinate: Inizio del canyon 42.6891 1.3943 Fine del canyon 42.7053 1.4023 Partenza alternativa del canyon 42.7014 1.3988

Automatisch importiert von Descente-Canyon.com für Canyon Estats Dans la partie haute P1, on trouve des amarrages très rouillés (faudrait prendre quelques plaquettes et anneaux pour les remplacer rapidement) un relais est également déséquipé. Équipement OK sur la suite du parcours. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21559/observations.html)

We ran the canyon starting from the middle entry point. I've uploaded the GPS track to make it easier to find your way. The canyon itself is very beautiful. The water is challenging, but the landings are very well placed. In general, you should avoid jumping or sliding into the pools, as rocks are often hidden in the whitewater. (traduzione alternativa)

We did part 3 (and the last 4 rappels of part 2). We could not find a true path to the start, kept around 1650-1700 through the bushes. All anchors solid but many rusty. All double. We did the C50 with a handline and then in 2 parts, all right side. Also very rusty anchor visible left. Good chained relais 15-20 meters from the bottom. Still some snow next to the C50! Bolts of the last rappel are very high up left (best approached on rope). Significant flow, but nowhere too serious. No pools with hazardous water movements. Took the path left to finish the day with Artigue.

Automatisch importiert von Descente-Canyon.com für Canyon Estats Estats intégral. Des énormes névés dans la première partie. Tous les relais ok même si beaucoup de rouille. Enchaîné avec Artigues. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21559/observations.html)

2026-06-26 | System User | |🕮 |⚓ | 〰 Alto | 👎 Non fatto
Automatisch importiert von Descente-Canyon.com für Canyon Estats Le débit d'arrivée de P2 et départ de P3 poussait bien. Sans connaître le canyon on a préféré faire demi tour. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21559/observations.html)
