Paese: France Regione: Auvergne-Rhône-Alpes Sottoregione: Isère Città: St. Gervais		
Difficoltà: molto difficile	Grado: v6 a5 IV	Tempo totale: 3h7
Tempo avvicinamento: 5min	Tempo giaro: 3h	Tempo ritorno: 2min
Altitudine di entrata: 880m	Altitudine di uscita: 620m	Altitudine delta: 260m
Lunghezza del canyon: 450m	Rapel più alto: 65m	Quantità rapelli: 12
Transporto: Auto necessaria	Tipo di roccia:	Area di ingresso: km ²
Stagione:	Orientamento: Ovest	Tempo migliore:
Valutazione: ★ 4.2 (6)	Info: ★ 2.5 (4)	Belay: ★ 2.6 (5)
Specialità:		
Attrezzatura: Corde: 1x50m+1x45m		
Sintesi: (traduzione alternativa) Technical rappel canyon		
Idrologia:		
Accesso: (traduzione alternativa) Take the N 532 running parallel to the highway from Grenoble in the direction of Romans-sur-Isere as far as Rovon. Turn left here and take the D 35 up towards Rencurel. The Canyon des Ecouges is also signposted. The road first leads up through sparse forest and finally crosses our stream on a bridge below the 65 m drop. Park your first car here. Continue up this road in a second car or on foot. You cross a tunnel and reach the exit of the canyon. Turn left here over the Pont de Chabert bridge and park the second car on the large area on the right		
Avvicinamento: (traduzione alternativa) From the parking lot at the Pont de Chabert just above the bridge directly into the Drevenne.		
Giro: (traduzione alternativa) Impressive and possibly demanding tour through the west walls of the Vercors (if the water flow is sufficient).\n\nThe water level at the beginning of the tour should not exceed 1 m ³ /sec.\n\nAll rappelling routes are installed in such a way that rappelling outside the waterline is also possible. To do this, however, free-hanging traverses must be made on the rope in two places in a vertical wall from the upper edge of the waterfall to the front.\n\nWhen the canyon opens, a stream crossing must be made from right to left and one directly at the edge of the 65 m fall from left to right over the slippery streambed. Make sure you secure the crossing adequately here (fatal accident of a canyoning guide on 17. 08. 2002).\n\nThe large waterfall can be broken (orographic. right after about 35m on a pleasant intermediate level).		
Ritorno: (traduzione alternativa) Either directly onto the road to the car or further down the Ecouges II (see there).		
Coordinate: Inizio del canyon 45.1773 5.4982 Fine del canyon 45.1793 5.4949
