Automatisch importiert von Descente-Canyon.com für Canyon Pombeiro Canyon avec un joli débit pour le secteur Arouca, ça fait plaisir. On arrive à faire qq sauts en cherchant. Équipement RAS. Magnifique roche mère. Un moulin à la sortie est bien préservé. Retour Vf 1h, autant que la marche retour casiment. We parked near the Adventure Park; it might have been better to park further ahead and walk along the road to the Adventure Park. Also, you can apparently have the restaurant owner at the Adventure Park pick up your wet gear for you at the canyon exit. Please follow the GPS track for access; once you reach the Adventure Park, you should be at the stream within 5 minutes. Then it’s 5 minutes of hopping over boulders before you hit a series of rappelling spots one after another. The rappel stations are very well set up, and rappelling in the water is a lot of fun; the highest rappel point is 25 meters, and the tour takes about 2 hours. At the exit, we arrive at a bridge; from there, it takes just under 1 hour to hike back up to the Adventure Park. If we had parked there beforehand, it might have taken only 40 minutes.
