Specialità:

Attrezzatura:
Corde: 2x120m

Sintesi: (traduzione alternativa)
Vertical rappel canyon with a challenging narrow section in the upper part.

Idrologia:

Accesso: (traduzione alternativa)
From the Biasca highway exit, drive to the center of Biasca and park a car behind the train station (see coordinates)
Take the 2nd car to the church in the village (Ciesa Pietro e Paolo). (Also possible on foot approx. 15min)

Avvicinamento: (traduzione alternativa)
From the parking lot, follow the path towards Riva, then the path towards Bédra del Vent (853m), then Nadro (alt.1240m); there follow the path towards the bridge (1260m).

Giro: (traduzione alternativa)
You start with C60, followed by C50, then comes a longer narrow section (be careful when the water level is high!!!! After the C120 (possibly divisible 70/50) there are some small abseils until the start of the lower part.
>> Attention: the water level picture in the book Eldorado Ticino by Nizzola is only valid for the inferior part. For the narrow section in the Intermedio part, there is noticeably less water than the "max picture" in the book shows !!! <<

Ritorno:

Coordinate:
Inizio del canyon 46.3544 8.9914
Parcheggio Entrata e uscita 46.3564 8.9736
Parcheggio all'entrata 46.3601 8.9737

Technical canyon with some stunning big drops... The narrow section with this water level is not challenging, but the water is cold

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) Did with inferiore. Very nice bit no sun at this season (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22709/observations.html)

Great hike—unfortunately, the sun didn't come out until we got to the lower part. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) Fait a partir du supérieur, pas mal de frottement à gérer mais sympa, DC (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22709/observations.html)

From a distance, it looks like there's very little water, but once you're in the narrows, you're glad there isn't more. A cool mix of narrows and high rappels. (traduzione alternativa)

We hiked through the canyon from Alpe di Lago all the way to the bottom. Six people, 1,800 meters of elevation gain. The anchors for the upper section are in place, but there’s a lot of walking in the river. The anchors in the upper section leave something to be desired, whether they’re tree belays or fixed points. A good re-equipping wouldn’t hurt. Nothing to report on the middle section (DC+ for the narrow part but no risk) or the lower section. Absolutely beautiful! (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) Eau plutôt froide jusqu'à la première 120m puis bien plus douce pour la suite. Nous avons dû rajouter une sangle sur un tronc bloqué au milieu d'une cascade pour ne pas avoir de problème lors du rappel de la corde. High water at the moment. Only the anchor of the first c70 was hard to reach, becease you need to cross the flow. After that all quite easy. The lower part was nice and sunny.

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) DC-. Mais c'est parfait pour ses grande longueur. Un peu des algues sur les 3 dernières cascades. C'était parfait avec les risques d'orage il y a pleins d'échapatoire. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22709/observations.html)
