Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) Eau plutôt froide jusqu'à la première 120m puis bien plus douce pour la suite. Nous avons dû rajouter une sangle sur un tronc bloqué au milieu d'une cascade pour ne pas avoir de problème lors du rappel de la corde. High water at the moment. Only the anchor of the first c70 was hard to reach, because you need to cross the flow. After that all quite easy. The lower part was nice and sunny.

Automatisch importiert von Descente-Canyon.com für Canyon Froda (Intermédiaire) DC-. Mais c'est parfait pour ses grande longueur. Un peu des algues sur les 3 dernières cascades. C'était parfait avec les risques d'orage il y a pleins d'échapatoire. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22709/observations.html>)
