Specialità:

Attrezzatura:

Sintesi: (traduzione alternativa)
Of great effort for its hard and demanding access in its succession of waterfalls/cliffs, it is of great beauty for being quite open and with an impressive perspective of the valley. Long waterfalls of sparkling water and moss-covered rocks.

Idrologia:

Accesso: (traduzione alternativa)
From Ainsa on the N260 we turn towards France on the A138 until we reach Bielsa. Here we turn left towards the Pineta valley and the Parador. Halfway, after the detour to Espierba (right) we will find the Pineta campsite on the left, shortly before we have a forested track on the left that bordering the campsite leads us to an esplanade where we will leave the car.

Avvicinamento: (traduzione alternativa)
We cross the Cinca by a footbridge/bridge and we enter the forest following milestones. After an hour we will arrive at the cirque right next to the Fuenblanca spring.
NOTE: Never go too far from the ravine and if 5min pass without seeing milestones... half a turn!

Giro: (traduzione alternativa)
Very intense descent, with no rest, good rappels, long descents and a lot of slopes to descend. Some people recommend not getting up early in the morning so that the sun comes in and you can enjoy the beauty of the environment (also to warm up).

Ritorno: (traduzione alternativa)
We follow the course of the water up to almost the bridge, at which point we return to the access road.

Automatisch importiert von Descente-Canyon.com für Canyon Fuenblanca Gros frottements sur le premier rappel sec. Le rappel de 35m est superbe. 2 options sont possibles avec deux relais accessibles via main courante.Sur le dernier rappel un nouveau relai permet de passer dans l'actif si vous le souhaitez. Avec ce niveau d'eau ça doit être sympa. Nous l'avons vu trop tardivement et avons donc fait le relais classique en rive droite.
