Sintesi: (traduzione alternativa) Canyon with some beautiful large pools. There are a few nice jumps - if you look carefully you will also find at least one 15 m jump.		
Idrologia:		
Accesso: (traduzione alternativa) We leave the SS 33 (Gravellona - Domodossola), which goes up the Ossola valley, through the exit of Piedimulera and we go west on the SS 549 in the Val d'Anza towards Macugnaga. After 10 km (from the SS 33 exit) we reach the village of Molini, where we leave our car and continue on foot, turning left immediately after the village. Crossing the Torrente Anza, we go uphill on a narrow road for 850 m, then we come to a bridge over the Val Segnara.		
Avvicinamento: (traduzione alternativa) On foot we continue, turning left immediately after the village. Across the Torrente Anza, we go uphill on a narrow road for 850 meters, then cross the bridge and immediately down to the right to the stream.		
Giro: (traduzione alternativa) Quite a wide canyon; somewhat slippery; when rappelling along the wall of the water drainage, the two pitons are only used as a safety measure to reach the chain anchor on the valley side, which is not visible from above. You can end the tour with a 13 m jump into the Torrente Anza. Here you can also use the large boulder to build a rope slide (2025)		
Ritorno: (traduzione alternativa) About 50 meters downstream in the Anza, then out to the right on a fishing path and upstream on the covered canal to the bridge. At the church, cross the Anza through the village, cross the bridge again and return to the car.

Combined with Val Bianca. Everything is a mountain pass. Very slippery at the moment. (traduzione alternativa)

Breve ma bella discesa, pozze enormi e ambiente selvaggio con una roccia differente dagli altri canyon più conosciuti della valle

Automatisch importiert von Descente-Canyon.com für Canyon Segnara Encore une belle découverte en ce 5 jour de RIC 2025 que ceVal Segnara ou les rappels et sauts (parfois très hauts) s'enchaînent pour notre plus grand plaisir...Le débit ce jour était « correct » la température de l'eau douce qui constatait avec la journée caniculaire... Automatisch importiert von Descente-Canyon.com für Canyon Segnara Vasques larges et profondes. Une fois dans l'Anza, le remonter (évidemment, via sa RD) : on tombe sur un panneau triangulaire de mise en garde aux crues. Ce très court sentier raide mène au très bon sentier qui conduit à la Madonna. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21491/observations.html>)

Slightly slippery in places, can be combined well with Val Bianca. The last rappel to the river is well suited for a rope slide that can be attached to a rock with a long sling. (traduzione alternativa)

Shuttle unnecessary. Park either along the main road (nice ancient bridge crossing to do by the church) or on the access road. Bonus: cozy family run pizzeria/restaurant on the main road.

I only did the lower part (last 2 waterfalls from the bridge). 2 great jumps (5 and 11 meters). At the top, according to the information, everything was tip top. (traduzione alternativa)
