Sintesi: (traduzione alternativa)
A very aquatic and challenging tour through a gorge that has been developed for tourism. However, the gorge trail leads high above the streambed and is hardly disturbing.

Idrologia:

Accesso: (traduzione alternativa)
From Klagenfurt on the Loiblpass road in the direction of Loiblsattel. Park at the Tscheppaschlucht parking lot, which charges a fee in high season.
Take a second car and follow the road over a saddle and the gorge of the Bodenbach stream to a parking lot in front of the bridge over the Loiblbach stream.

Avvicinamento: (traduzione alternativa)
From the lower parking lot: via the tourist path (8-10 EUR per person) in the direction of GH Deutscher Peter, cross the Bodenbach coming from the Tschaukofall and enter the main gorge somewhere above. Duration 45min - 60min
From the upper parking lot, descend the tourist path and enter as you wish. Any blocked gates can be bypassed in the streambed. We only entered just before the mouth of the Bodenbach. 10min

Giro: (traduzione alternativa)
Difficulties are strongly dependent on the current woodwork, only small steps that can quickly recede. Swimming up the steps can also be problematic. At the last 7m waterfall under the bridge, the new belaystation is located orographic left in the angle, there are anchors for a traverse rope. However, anchors are well placed and in logical places.

Ritorno: (traduzione alternativa)
When the gorge opens, ascend to the right to the tourist trail and take this back to the car.

Entry via Tschaukofall from above. Entry into the Loiblbach a little below the last bridge (tree rappel from orogr. left). Belaying in the gorge was sufficient, an unpleasant tree entanglement with a tree stuck lengthwise in the gorge with a washed over rootstock. Last rappel under the bridge into an impressive stilling basin. (traduzione alternativa)
