Paese: Italia / Italy **Regione:** Liguria **Sottoregione:** Imperia **Città:** Ponti di Pornassio		
Difficoltà: non così difficile	**Grado:** v3 a3 III	**Tempo totale:** 3h50
Tempo avvicinamento: 40min	**Tempo giaro:** 3h	**Tempo ritorno:** 10min
Altitudine di entrata: 540m	**Altitudine di uscita:** 400m	**Altitudine delta:** 140m
Lunghezza del canyon: 1400m	**Rapel più alto:** 15m	**Quantità rapelli:** 16
Transporto: a piedi	**Tipo di roccia:**	**Area di ingresso:** km²
Stagione:	**Orientamento:** Nord	**Tempo migliore:**
Valutazione: ☆ 2.9 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialità:

Attrezzatura:
Corde: 1x30m

Sintesi: (traduzione alternativa)
Attractive forest gorge

Idrologia:

Accesso: (traduzione alternativa)
Leave the A 10 highway (Genoa - Ventimiglia) at the Imperia - Ost ("Imperia-Est") exit and head north on the SS 28 towards Pieve di Teco (Colle di Nava; Turino). After a good 23 km we reach Pieve di Teco and 2 km after the village we turn left off the SS 28 onto the provincial road towards Mendatica/Monesi. After a further 2.5 km (from the junction), the road takes us over the River Aroscia (immediately after the bridge on the left is a good parking area for motorhomes). After another kilometer, we enter the village of Ponti di Parnassio. Right at the start, there are parking spaces to the left of the road where we can leave the car.
If you are coming from the Genoa area on the A 10, turn right at the "Albenga" exit onto the SS 582 towards Albenga and then immediately turn right again onto the SS 453. After around 26 km, you will reach Pieve di Teco. Continue as above.
In the indicated locations another parking lot is suggested and accordingly an access from the beginning on the orographic left side of the Rio S.L.
We can also park in the middle of the village, but then we have a problem with putting on and taking off the Neos.

Avvicinamento: (traduzione alternativa)
We continue to follow the road - on the right there is a turnoff over the Rio Aroscia into the historic old town - and then turn left up the next street. Passing under some arches, we reach the last houses, where the road becomes a dirt road that we follow until we reach the bridge over "our" stream (Here you can check the water flow). We pass under the porch of a chapel and continue uphill. After the forestry road has returned to the stream, it makes a right turn and shortly after, the path goes down to the left to the stream. It is marked with "Procanyon" markings (blue dots on white rectangle).

Giro: (traduzione alternativa)
A lot of downclimbing; further on some attractive narrow sections with possible jumps and a super slide.

Ritorno: (traduzione alternativa)
Turn right at the water drainage, downhill to the bridge and from here on the access path back to the village. Once you have parked your car in the alternative parking lot, continue down the stream almost to the road.

Automatisch importiert von Descente-Canyon.com für Canyon Santa Lucia (inférieur) Pour trouver l'accès : une centaine de mètres avant une épingle à droite, un cairn et quelques rubalises marquent un chemin à gauche pour descendre au début du canyon (nous n'avons pas trouvé les marques de peinture). Joli canyon, sauvage. Un chevreuil mort après le toboggan de 8m, vers le début du canyon, en plein milieu du torrent. Descendu avec Titi l'anguille. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2949/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Santa Lucia (inférieur) Les amarrages détruits lors de la tempête de 2020 ont été refait récemment (l'an dernier?) mais les anciens n'ont pas été retiré. Très peu d'obstacles ludiques mais canyon intéressant et toujours jolie (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2949/observations.html)
