Automatisch importiert von Descente-Canyon.com für Canyon Rots de Balme Parfaites conditions. Attention, un point de relais chaîné broché s'est fendu en deux au deuxième obstacle de la partie haute ! Lunaire, jamais vu ou entendu ça. Rappel donc sur mono point (un Tchéchénie à faire avec un point de MC plus haut permettait d'avoir deux points). Relais RG si nécessaire (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2145/observations.html>)

We parked at the exit parking and walked to the top of the canyon as we didn't have a second car. Took us 45 minutes. We recommend parking at the waypoint if doing the same and leaving the canyon at the concrete dam, follow 'sortie canyon' arrow. Good steady flow in the canyon, good mix between rappels, slides and jumps. Canyon is commercially popular and we were followed by a big group of 15-20 people.

Automatisch importiert von Descente-Canyon.com für Canyon Rots de Balme Les mains courantes de la partie supérieure sont un peu abîmées. Débit correct -, sinon RAS. Fait après les différentes rotations des guides, personnes dans le canyon (départ vers 17h30) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2145/observations.html>)
