Specialità:		
Attrezzatura:		
Sintesi: (traduzione alternativa) Relatively open rappel canyon through the red granite rocks of the calanque.		
Idrologia:		
Accesso: (traduzione alternativa) From Porto on the west coast we take the D81 in the direction of Piana, Cargese, Ajaccio. After 7.2 (from the bridge in Porto) we come to a prominent left turn at the "Tête du Chien" with a large parking lot and information board. Here we park the car. \nIf we have 2 cars available we drive - otherwise we walk - 2 km further on the winding road and then park the second car just after the bridge over the stream.		
Avvicinamento: (traduzione alternativa) On the SE side of the bridge - Pont de Cavallaghiu - down into the streambed.		
Giro: (traduzione alternativa) In the open streambed to the water drainage, then the C30. Then again a longer walking passages with some places to downclimb, before we come to the highlight. Here the creek deepens about 30m, the rappel, mostly in the open slope, take place under large trapped rocks. Direct rappelling after the clamping blocks is also possible. A little later another nice rappel (C20). A varied descent with slides and jumps follows.		
Ritorno: (traduzione alternativa) At the confluence of the streambed that comes down to the right of the Auberge des Roches bleues (cairn at the exit), a path leads up on the orographic left side of this dry streambed (seen from below at the right foot of the slope) and meets the D-81 not far from the Tete du Chien. This path - discovered by me by chance in 1997 - is pleasant, evenly rising and mostly shaded. In the book Corse Paradis du Canyoning a difficult way back - pathless up the opposite, well sunny, slope - is described. On page 79 (No. 14) in the printed map section, however, this footpath is also marked. In the meantime, this way back can also be found in the book by Jourdan/Fiorina.

Automatisch importiert von Descente-Canyon.com für Canyon Dardu Sec sur les sections de marche. La veste néoprène laissé à la voiture ne manquait pas. Retour par les Roches Bleues. Dans ces condis, même si il est bien, la note de 3,1 parait surcotée. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2325/observations.html>)

Little water as always, dry in sections, problem-free tour. The highlight of Corsica in terms of nature Spotted an eel halfway up in a pool. Ascent route not found immediately (traduzione alternativa)
