For once with real water! Nice tour for bad weather/high water levels. All anchors in superiore condition.

Partly slippery to walk in the water. All anchors okay. The ropes on the bridges could be replaced on occasion.

"gut" Griffig zu gehen, schöner Blick auf Biasca; mal offen und sonnig, mal enger und grüner - wenn sonst überall  
zu viel Wasser läuft, lohnt sich die Tour durchaus. (Quelle:

Nice and short alternative if there is otherwise too much water in the other canyons. At each of the bridges there  
is a chain link attached to the railing with ropes, which can easily be overlooked due to the very open canyon.  
Apart from the penultimate rappel with mini pool, the canyon can also be walked dry. (traduzione alternativa)

Not much for the otherwise quite high water levels. Very easy to walk. (traduzione alternativa)

Automatic importiert von Schlucht.ch für Canyon Vista Biasca, Wasserstand: "mittel" Verankerungen: "Auf Höhe  
der unteren Steinhütte fehlt am Stand das Plättchen mit Ring. Gut so, der Bolzen ist sehr locker. Am besten vom  
Stand davor durchseilen (30+ m)" schön griffig, gute Alternative für "rote" Boggera und Nala. (Quelle:

At the level of the lower stone hut, the plate is missing from the belay and the bolt is very loose. It is best to rope  
through from the belay in front of it (30+ m) (traduzione alternativa)

Amazingly good canyon for such a small catchment area. Water level was mountain pass after the thunderstorm  
during the night. (traduzione alternativa)
