Sintesi: (traduzione alternativa)
Southeast-facing rappel canyon, which is approached via a via ferrata and offers a thermal shower at its exit.

Idrologia: (traduzione alternativa)
Only accessible later in the year, when the snowmelt no longer brings so much water - around August/September

Accesso: (traduzione alternativa)
We leave the "Autoroute du Rhône" via the Riddes exit, then drive into the center of Leytron and from there towards the neighboring village of Saiilon. Before the bridge over the Sallents, we turn right and head for a suitable parking lot at the canyon exit (see Google aerial photo in photo gallery).

Avvicinamento: (traduzione alternativa)
Access best via the Via Ferrata "Farinetta" from Saillon, cf.:
http://www.bergsteigen.com/klettersteig/vallais/berner-alpen/farinetta and
https://youtu.be/YXBdYyVH7jA\n\nAccess according to the book by Brunner/Betrisey seems no longer possible because the municipality has closed the tunnel.

Giro: (traduzione alternativa)
Several different parts, some narrowly cut, see topographic view and photos. Exit at the thermal spring.

Ritorno: (traduzione alternativa)
Downhill along the stream to the parking lot.

Coordinate:
Inizio del canyon 46.1845 7.1811

There's a lot of wood in the canyon. But that also means there are plenty of opportunities to climb, which otherwise would only be possible by rappelling. (traduzione alternativa)
