"Water hike" in the river Saane, idR to be mastered without ropes, longer swimming distances

Idrologia:

Accesso: (traduzione alternativa)
From Château d'Oex in the Saane Valley we drive about 9.5 km in the direction of Bulle, Fribourg. Then we come to the road bridge over the Saane. A few meters before the bridge, on the left, there is a large parking lot where we can park the car.

Avvicinamento: (traduzione alternativa)
From the parking lot we cross the road bridge, take the small road to the left after the bridge and after a few meters we come to an iron staircase that leads us down to the riverbed.

Giro: (traduzione alternativa)
At the beginning with moderate water flow in the water right past the rock, otherwise left down. Even before we are high up through under the footbridge, the "washing machine" (!) awaits us. Walking and swimming sections follow. Before the road bridge - left hand mostly Altholzverhau - exit to the right onto the bridge.

Ritorno: (traduzione alternativa)
Across the bridge in a westerly direction up to the big road and then left to the car.
