Automatisch importiert von Descente-Canyon.com für Canyon Val Tür 11h drive up 12h30 start, 14h finish, 14h30 hitchhike back up to our car up with a friendly local. All anchors ok. Apparently a new anchor was recently added on the big wall left side just before the overhanging part. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22461/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Val Tür Soit nous avons raté le crochet au sol à gauche de la deuxième cascade lors de notre dernière descente, soit il a été remplacé. Neige à environ 1 600 m, donc froide. Un magnifique dernier canyon dans les Grisons pour la saison 2025. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22461/observations.html>)

We overlooked the anchor on the 2nd rappel (1st after the dam wall) last week - it is on the left just above the ground. Unlike a week ago, we climbed it without reparking. Approx. +30 minutes for access or return. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Val Tür Attention : Le premier barrage anti-débris possède encore un amarrage à l'avant droit, mais pas la cascade suivante ! On peut descendre les deux d'un coup avec deux cordes de 30 ou une corde de 60. Les ancrages ne semblent pas très stables non plus ; à une cascade, par exemple, il y a trois pitons, mais que une seule plaquette. Just as beautiful as 2 years ago. Very short canyon, but worthwhile. Anchors at the 2 belay (1 after the dam) and at the intermediate belay of the C80 (to be able to go with 60 ropes) were no longer there. (traduzione alternativa)

Automatisch importiert von Descente-Canyon.com für Canyon Val Tür Super plan B quand il a plu toute la nuit! Magnifique grande cascade. Équipements bon (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22461/observations.html>)

Easy access on foot. 45 minutes. No more ice at 15 degrees plus and hair dryer. All anchors there. Nothing out of the ordinary. Nice final sequence. 2h15 car to car relaxed pace (traduzione alternativa)

All anchors available. Hardly any ice in the stream. The C80 is probably more like 70m. (traduzione alternativa)

All anchors are still there. At the moment the canyon is very grippy. (traduzione alternativa)

Quite sporty water level. Not impossible as rarely through the main water jet. The main danger is the stones that the water drags along. Take a little care there. Orographic right intermediate belay damaged during the big rappel, which is why we took the left one. Ans. Relatively good stances but a bit loose. A wrench for retightening is almost a must. We also had it with us and tightened the stances we used. (traduzione alternativa)

Scenic short tour with spectacular final waterfall. All belays in good order and mostly designed as double expansion anchors with a ring. (traduzione alternativa)
