Sintesi: (traduzione alternativa)
Small rappel canyon with runs and exits.
Rather something for collectors, in any case from the water intake.

Idrologia:

Accesso: (traduzione alternativa)
We leave the A3 (Sargans-Zurich) via exit 49, Flums, drive through Flums and then up towards Kienberg. There we take the road down towards Chlevelau and park the car for the exit at the bridge over the Röllbach (see approach in photo gallery).\n\take the second car back and up to Kienberg and then on to the Geisswiese vacation home. About 50m after the junction of the access road to the vacation home, there is an access road to two farmsteads on the left. Near this junction we park our second car in a suitable place (see conversion in photo gallery).

Avvicinamento: (traduzione alternativa)
From the car we walk past the two farmsteads down to Röllbach (entry - see Röllbach access in photo gallery).

Giro: (traduzione alternativa)
Varied descent in a small canyon. Red flysch rock. Alternating running sections with some narrows.
Up to the water catchment felt more aquatic than A3, then hardly any water and very much wood. Very water-loving drilled in, but due to the low height and the nature of the waterfalls usually no problem. Much can be downclimbed or bypassed. Emergency exit after the first gulched part no longer a problem and regularly possible.

Many entanglements are unstable.

Ritorno: (traduzione alternativa)
Get off at the road bridge.

Automatisch importiert von Descente-Canyon.com für Canyon Röllbach Petit canyon sympa pour emmener un novice. Il y a des arbres de partout! Relais en bon états (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/23594/observations.html)

Partly DIY market quality hooks. Almost exclusively only one hook. Partly in exciting places but out of the water. Upper part has its charm. After the water intake little worthwhile. (traduzione alternativa)
