Accesso: (traduzione alternativa)
From Huesca on the A 132 72 km in the direction of Pamplona. After reaching the N 240 from Jaca, turn off at Puente la Reina into the Hecho Valley. 24 km further on you come to Hecho. Continue northwards, along the Boca Infierno, on a partly narrow road to Selva de Oza. Park your car in front of the first long abandoned house. Shortly before you have crossed the Estribiella.

Avvicinamento: (traduzione alternativa)
From the car (1090 m above sea level) across the meadows uphill on a hiking trail into the forest. Follow the path, which later climbs more steeply in serpentines. After reaching a high valley, turn left down into the streambed of the Estribiella (cairn).

Giro: (traduzione alternativa)
13 Rappels. The first two higher steps have to be rappelled through in one go (2007) (25 m); the 'R20' rappels in the book mentioned are all a bit tight - or is that a result of rope shrinkage?

Ritorno: (traduzione alternativa)
After the rappel with the small overhang, continue for approx. 150 m in the streambed, down the 5 m rappel and then on climbing tracks to the left up to the approach path. Follow this back to the car. Instead of getting out after the vertical part, as described here, you can continue the tour in the streambed and then reach the road bridge after 1.5 hours.
