Paese: Österreich / Austria Regione: Salzburg Sottoregione: Bezirk St. Johann im Pongau Città: Bad Gastein		
Difficoltà: un po' difficile	Grado: v3 a4 IV	Tempo totale: 3h25
Tempo avvicinamento: 50min	Tempo giaro: 2h30	Tempo ritorno: 5min
Altitudine di entrata: 1020m	Altitudine di uscita: 870m	Altitudine delta: 150m
Lunghezza del canyon: m	Rapel più alto: 40m	Quantità rapelli: 8
Transporto: Auto facoltativa	Tipo di roccia:	Area di ingresso: 35.00km ²
Stagione: luglio - novembre	Orientamento: Est	Tempo migliore:
Valutazione: ★ 3.5 (1)	Info: ★ 2 (1)	Belay: ★ 1 (1)
Specialità:		
Attrezzatura: Corde: 2*40		
Sintesi: (traduzione alternativa) A Tauern stream with some very beautiful highlights, but unfortunately also longer, arduous walking passages in between. Please note: there is a power station above that is automatically regulated. The Angerbach has a relatively large catchment area. Only go after several days without rain and in safe conditions - not during the melting period.		
Idrologia: (traduzione alternativa) Catchment area of over 35 km ² , with a discharge for a power plant that is automatically controlled.		
Accesso: (traduzione alternativa) From Hofgastein drive in the direction of Bad Gastein. After the traffic circle 'Bad Hofgastein Süd' turn right at 'Café Schneidiges' and continue in the direction of Hartl. Shortly before the first hairpin bends there is the possibility to park 1-2 vehicles at the roadside. Alternatively, you can take a second vehicle to the Angertal lift station and start from there.		
Avvicinamento: (traduzione alternativa) You can either start from the parking exit or from the Angertal parking lot in the direction of Hartl. Above Hof there is a small path that leads to a pasture. Afterwards, the trail leads cross-country through the forest in a northerly to north-easterly direction		
Giro: (traduzione alternativa) You start with a walking passage through difficult terrain (slippery, block climbing, lots of trees) to reach the first abseil points. This is followed by three beautiful rappels, all of which are shorter than 20 meters. On the last rappel, you can ideally slide down on the left side into a very deep pool. This is followed by another arduous walking passage to the next steeper part. This begins with a jump or a slide or rappel (a saw is recommended to clear the slide of obstacles). This is followed by another 4-5 rappels. The first complete ascent took place in 2021, and there have been no known repeats since. In any case, you should take sufficient equipment with you. Unfortunately, I no longer know the exact lengths of the abseils, but I estimate the longest abseil to be around 25 to 35 meters. I therefore recommend taking two ropes with a length of 40 meters.		
Ritorno: (traduzione alternativa) Get out on the right and walk a few meters across a private property to the car.
